## ABOUT US

**Terra Plastwood L.L.P.** is well known manufacturer of WPC Door Frame, Decorative WPC Wall Panel & WPC Ceiling Panel. The company is engaged for making best quality products which are widely used in different applications. Door frame used in housing project and WPC Wall Panel & Ceiling Panel used in home, shop, hospital, restaurant, school, baby room, shopping mall..etc. Our Door frame is totally engineered product by automatic machinery so it resolves all problems which generally occurred in natural wood like swelling, Expansion, contraction & wastage due to cracking.

We are manufacturing WPC Door Frame, Decorative WPC Wall Panel & WPC Ceiling Panel by using BEST QUALITY Raw Material which coming from U.S.A., Germany, Taiwan, South Korea, China..etc countries.

## PROPERTIES

### 1) Door Frame :-

- Termite proof, Fire retardant & UV Resistant
- Surface is so smooth & finished that we do not need any paint or polish to enhance its look.
- How ever if need we can do surface treatment - like PU Polish, PU Matt, Paint, Laminate, Veneer etc.
- Due to the high density of wpc door frame, it is more durable than wood
- Due to its heavy screw holding capacity, WPC door frame is the most promising product.

### 2) WPC Ceiling Panel & WPC Wall Panel:-

- Panels have male-female grove at both side for easy installation & hiding screws
- Advantages of panels are waterproof, Fire-retardant, Eco-friendly, Mothproof and formaldehyde free etc
- Easy to apply as wall cladding & Ceiling application.
- Available in vast range of designs like wooden figures, marble look, brick wall look & wall paper patterns.
- Having Long Life and Cheaper product compare to color & wall paper application. Gives aesthetic look to room.
